**UTS**

Cambridge  
Accelerator

Gain a Cambridge  
A level qualification while  
experiencing Australian  
university life.

**Applications are now open!**

# Welcome to a new way to study Cambridge International AS & A Levels.

Imagine if Year 10 graduates could complete their A and AS levels abroad while experiencing university life at a top 100 university?

Well, we're excited to announce, students now can!

Commencing in January 2025, UTS College will be offering an exciting Australian first – the NEW UTS Cambridge Accelerator. It's the ultimate way to accelerate younger students into university abroad. It's the new way to study A levels.

The program combines globally recognised Cambridge International AS and A Levels with the option of four Business or STEM-focused first year university (diploma) subjects. Academic English and Duke of Edinburgh's International Award, a leadership and life skills development program, is also built into the course, so students can quickly build confidence and accelerate their learning journey.

All of this will be delivered on the world-class University of Technology Sydney (UTS) campus, located in the heart of Sydney, Australia.

This is a  
global first

“After more than 35 years preparing international students for success at UTS, we’re applying our expertise to provide an exciting new opportunity for ambitious young international students to engage in a unique university experience, in a safe and nurturing environment. This is an unrivalled opportunity for your child to be guided and supported by highly qualified and compassionate educators, and to be deeply connected to their learning, all while being fully prepared to accelerate to university and thrive in the career and future of their choosing.”

**Justin Chu**

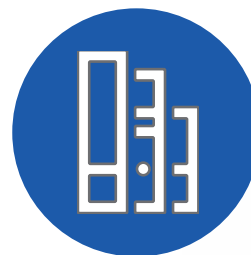

*Principal, UTS Cambridge Accelerator*

# What's included in the UTS Cambridge Accelerator?

The curriculum combines:

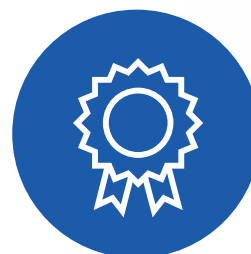

**Cambridge International (AS and A levels) subjects**  
Choose from science, commerce, IT or engineering streams

**UTS College Academic English**  
AE4 & AE5 levels

**Option to study four first-year university (diploma) subjects**  
Choose from science, commerce, IT, or engineering

**Duke of Edinburgh's International Award**  
An internationally recognised leadership award

## How it works?

\*On successful completion of the program, achieving the points required for their chosen degree. Students will also receive four subject credits towards a UTS College diploma on successful completion of the diploma subjects.

# What does accelerating your child's education look like?

1.

It's giving them the chance to experience university life while undertaking their A levels.

Tell your family and friends they're studying at UTS, a global top 100 university and #1 young university in Australia!

The UTS Science Super Lab is one of only two in Australia. Students will learn on the same equipment used in research and industry.

2.

It's giving them the opportunity to learn using world-class university facilities.

The UTS library is one of the largest university libraries in Australia, with study spaces to cater for all needs. This includes group study spaces, podcast rooms, learning tech hubs and an outdoor green terrace.

### 3.

It's offering them university subjects and a model of learning that develops independent study skills, all while they complete Cambridge A levels.

Students can choose commerce, engineering, IT or science streams as part of the curriculum.

The Duke of Edinburgh's International Award provides extracurricular activities focused on growing students' leadership and personal skills, to give them a confidence boost and competitive edge for university.

### 4.

It's helping them build critical life skills, including English and communication skills, to apply to the next phase of their education journey.

# 10 unique program benefits

## A globally recognised qualification.

Cambridge International A and AS levels are highly valued by universities and employers worldwide.

## Students experience life at a top 100 university, early.

Students will study on the UTS campus, mix with a diverse group of students, enjoy university facilities and the opportunity to study first year university (diploma) subjects.

## Study subjects they're passionate about.

Students will choose one of four study streams: commerce, science, engineering or information technology, taught by highly qualified teachers experienced in transitional education.

## A comprehensive wellbeing program.

Our Cambridge wellbeing program includes pre-departure inductions, airport pickup service, orientation sessions, peer mentoring programs, welfare checks, progress reports, teaching support and more.

## Start and finish studies in the one location.

From A levels to degree – students can complete their studies on the UTS campus with our one stop study plan. No need to move.

## Guaranteed entry to UTS.

A place in any UTS undergraduate degree is guaranteed on successful completion of their A levels with the required points.

## Build essential life and leadership skills.

The Duke of Edinburgh's International Award is built into the program, accelerating students' development across a range of essential leadership and career skills.

## Tailored support for under 18s.

UTS College specialises in a range of academic and welfare support services to ensure students are well cared for and succeed academically. Services include one-to-one counselling, study skills workshops, Student Success Advisers, online tutoring, 24/7 online study support, and more.

## Enhance their English language skills.

UTS College Academic English levels 4 and 5 are built into the program to set students up for success in their studies now and prepare them for university-level English.

## Safe and convenient city campus location.

UTS is located in the heart of Sydney and is close to all major transport hubs. All classes are scheduled during the day, with 24-hour onsite security and campus buildings all in close walking distance.
